

Root's Musical Transposition

KEY BOARD!

By the use of this Board, musical philosophy can be elucidated beyond all competition by any other means. It is beyond the stretch of thought to grasp, by the use of the blackboard or musical books, the amount of ideas that this board will unfold.

The inventor of this Board will give normal information to any one who wishes a knowledge of musical philosophy, or wishes to become competent to teach abstruse questions in musical science.

RILEY ROOT.
